

Join OneBanc's

House of Product

Organization's Vision: "Why does my money in my piggybank never grow?", said a little girl. With that idea in mind, the founder of OneBanc Vibhore Goyal created the organization. Following the philosophy of "Demand More", OneBanc is an artificial intelligence-led neo bank start-up that seeks to transform the financial sector with innovative products and services that keep the customer at the centre. OneBanc aspires to become the World's Largest Payroll Bank Challenger that aligns enterprises, banks, and payroll processors technologically and strategically to enhance benefits for all stakeholders, especially the employees of client enterprises. A one-stop solution for payroll processing for the white-collar professionals. It's a \$6 trillion industry worldwide and projected to touch \$8 trillion by 2025. And we are building OneBanc to tap into that market.
